kalpit.swami@gmail.com | [LINKEDIN](#) | [Portfolio](#) | [GitHub](#) | [Medium](#) | Toronto, Canada

SUMMARY

Cloud/DevOps Engineer skilled in AWS, Infrastructure as Code, and CI/CD. Built production-style architecture and serverless pipelines with Terraform. Strong academic foundation (4.0 GPA) with hands-on project experience deploying secure, scalable, and automated systems.

TECHNICAL SKILLS

- **Cloud:** AWS (VPC, EC2, ALB, ASG, RDS, S3, IAM, CloudWatch, Lambda)
 - **IaC & Automation:** Terraform (modular design, remote state), GitHub Actions
 - **Monitoring & Logging:** CloudWatch metrics, alarms, and logging; troubleshooting ALB/IMDSv2 issues
 - **Containers & OS:** Docker, Linux (Amazon Linux, Ubuntu)
 - **Scripting:** Bash
-

PROJECTS

Scalable 3-Tier Web Architecture on AWS with Terraform & Auto Scaling | [GitHub](#) | [Medium](#)

- Cut deployment from **dozens of manual steps to a single command** by automating a 3-tier AWS architecture (VPC, ALB, ASG, RDS, IAM, Security, Bastion) with Terraform modules.
- Ensured **high availability and scalability** with **multi-AZ Auto Scaling and ALB routing**.
- Improved **operational visibility** by integrating **CloudWatch monitoring** and troubleshooting ALB/IMDSv2 issues.

Serverless Data Scraping & Notification Pipeline on AWS | [GitHub](#) | [LinkedIn](#)

- Automated data collection by building a serverless pipeline with EventBridge → Lambda (Python/BeautifulSoup) → S3.
- Reduced **manual monitoring overhead** with SNS alerts and CloudWatch logs/metrics.
- Increased **system reliability** using least-privilege IAM, error handling, and retry logic.

Serverless Portfolio | [Link](#) | [GitHub](#) | [LinkedIn](#)

- Deployed React portfolio on AWS S3, served via **CloudFront**, with custom domain from Namecheap.
 - Implemented **CI/CD with GitHub Actions**, reducing the time spent on manually replacing build folders with automated sync to S3.
 - Secured **EmailJS contact form** by injecting credentials via GitHub Actions secrets at build time.
-

EDUCATION

Seneca College of Applied Sciences & Engineering Technology

PG Certificate in **Cloud Architecture & Administration** · May 2025 – Dec 2025

PG Certificate in **Cybersecurity & Threat Management** · Sep 2024 – Apr 2025 · GPA 4.0 (High Honors)

AWARDS & ACHIEVEMENTS

- **Winner** – AWS JAM (Team Competition), AWS Summit 2025 | [Link](#)
- **President's Honor List**, Class of 2024-25 (Cybersecurity (2024) | Cloud Architecture (2025)) | [Link](#)
- **Core Member** – **National Service Scheme (NSS)**, a student-led community service and leadership program at JIMS, Vasant Kunj, New Delhi.
